

## Golden Lane Estate

### Weekly Update and Progress 5<sup>th</sup> April 2019

Welcome to the weekly update from the Major Projects Team.

We are a new team who have been tasked with the delivery of many of the projects happening on Golden Lane Estate and other estates managed by the City of London.

As a team of Project Managers and Clerk of Works, we are currently managing around 50 projects at various stages of design and delivery. We have a large variety of expertise in the team, managing projects from Concrete Repairs to Electrical Testing to Redevelopment. We have just reported that for quarter 4, that our average customer satisfaction level is still 97% with Decent Homes work and Electrical Testing on Golden Lane Estate being well received (our target is 91%).

#### **Concrete Repairs**

We are carrying out a lot of snagging with this project presently and there will be some areas that may need re-doing should they not be up to standard so you may see the contractor breaking out some smaller areas in various spots around the estate. We will do our utmost best to keep you informed of any noisy work.

I would also like you to report any dust, debris, paint or concrete splashes etc. to me on the email address below so we can raise this with the contractor (you can raise this direct with the contractor if you so wish). We will be completing checks but if you have any areas which you may think we have missed or not cleaned properly, please get in touch.

Feedback on our projects is important to us and the contractors we use so please do offer feedback. This will enable us to continue to improve service we offer and pass on your comments and compliments to those responsible for the good work on our estates.

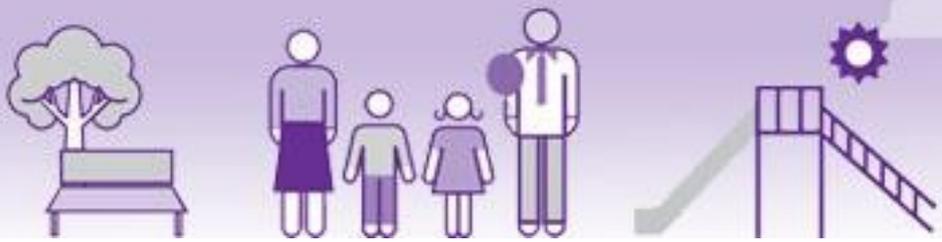

Over the next few pages, I'll provide updates on each of the Golden Lane Projects.

**Jason Hayes**

**Major Projects Team Manager**

## Our Projects

### Crescent House & Cullum Welch Heating

The report has been submitted to Committee and further notice of events and feedback will be issued in due course. Any breakdowns or issues with boilers should be reported to the repairs team on 0800 035 0003.

### Decent Homes

The Decent Homes project is now completed on the Golden Lane Estate. We would like to thank the Estate Team for their ongoing support during the delivery of the new kitchens and bathrooms and especially thank our residents for their co-operation and patience.

### Concrete Repairs

The repairs are largely complete, and the contractor is completing final snagging with the assistance of our clerk of works. A small number of repairs on Crescent House have not been completed to the high standard required of our planning department. As a result, our contractor Engie is returning to complete these this week. Engie will also be completing all final cleaning and repairs associated with the concrete works this week, and their compound has now been successfully removed from next to Great Arthur House.

You may notice flaking paint on Hatfield House and Basterfield House. This is not related to the concrete repairs and wasn't included in the scope of this contract. The City of London is fully aware that this needs to be addressed, and it has been included in the upcoming window renewal programme.

### Electrical Testing and Installation of Smoke detectors

320 properties have had electrical testing checks completed on Golden Lane and Middlesex Street by Guardian. 143 properties have had remedial works carried out in Golden Lane. 78 satisfaction surveys have been completed by residents to date. The remaining properties where we have had no contact have been passed onto the relevant estate teams to make contact.
