Methods for Off Job Training
Lectures
Cheaper method of training.
For some jobs, it is the most appropriate method.
Vestibule training
Artificial situation created for training people.
Role Play
Business Games
Case Studies

Gender
Nationality
Race
Religion
Why do we need Equal Employment Opportunity (E.E.O)?
Job description does not provide any base for discrimination.
If law requires, we have to obey the law.

Ethics.

Research has shown, variety of people can perform better in an organization. This phenomenon is called Work Force Diversity.

Managers should encourage different types of people to join organization in order to enhance productivity.

Collective Affairs of Employees

Employees form labor unions in the organization.

There could be more than one labor organizations in the company.

Collective Bargaining agent (CBA) is a person who has been elected by all the workers in the organization through legal procedures.

Negotiations can be on:

Salary

Working Conditions

Timings

Facilities

Benefits

Attitudes

Motivation

Motivation is a force that forces people towards a task.

Classical Theory of Motivation

People are motivated because of money or material objects.

Fredrick Taylor’s Theory of Scientific Management

Every job should be studied scientifically.
Jobs should be divided on the basis of tasks and skills of labor.

Pay should be attached with productivity.

Time & Motion Studies

Time spent on jobs should be studied using scientific devices and motions of machines or human motions.

Objection on Fredrick Taylor’s Theory of Scientific Management

This theory considers human beings as machines.

Hawthorn Studies

Basic purpose of these studies was “Effect of light on productivity”.

Productivity depends upon human relations.

Shortcoming of this theory was that human moods, human behavior, human liking and disliking and human interest were ignored.

Hawthorn Studies became a base for behavioral studies in organizations.

Lecture 19

McGregor Theory - X

Every normal human being dislikes work by nature.

People work because of some pressure.

Pressure can be:

Salary

Advancement

Respect

Some other force

McGregor Theory - Y

People inherently like to work.
McGregor Theory – X & Y X-
Type managers might:
Use punishment and threat to make people work.
Control activities of the work very closely.
Y-Type managers will identify the barriers which are causing problems for workers and try to eliminate those barriers.
In some situations, managers have to adopt X-type behavior and in some situations, they have to adopt Y-type behavior.
Culturally, in societies, managers are moving towards Y-type behavior from X-type behavior.
Why do People work?
Need
A state of felt deprivation.
Maslow’s Hierarchy Of Needs
Biological Needs
Biological needs are related to human body’s survival. e.g. food, drink, air, sleep etc.
Safety Needs
Safety from:
Cold
Heat
Sand
Storm
Earthquake
Animals
Enemies
Social Needs
Self Esteem
Worth attached by human beings to themselves.
People who have high self esteem are more productive.

Use of Hierarchy in Motivation
Biological needs can be fulfilled by:
Giving salaries.
Providing free or cheaper food to employees.
Providing routine items at concessional prices.
Safety Needs
Organization can provide safety devices to employees. For instance:
Helmet
Glasses
Gloves
Safety Needs
Organization can provide safety devices to employees. For instance:

www.virtualians.pk
Awards
Cash rewards
Increment in the salary
Promotion
Raising status of employees
Self Actualization
Fullest utilization of one’s potential.
These include:
High Challenges
High position in the organization
Criticism on Maslow’s hierarchy theory
It is possible that human needs may deviate from the order given by Maslow.
There is a question mark whether needs finish after self actualization or not.
Two Factor Theory or Hygiene theory
Hertzberg presented this theory by taking the phenomenon of human hygiene.
Two factors work in the organization:
Hygiene factors
Motivators
Factors required to keep employees in the organization are called hygiene factors.
Factors used to get high productivity from workers are called motivators.
Hygiene factors fall with the biological needs, safety needs and partially with social
needs of Maslow’s hierarchy theory.
Motivators are almost similar to social needs, Self esteem needs and self
actualization needs of Maslow’s hierarchy theory.
Both factors should be present in the organization at the same time to get productivity from workers.

Expectancy Theory
People in the organization are motivated with:
Expectations about reward.
Assurance of getting reward by doing a particular task.

Equity Theory
Equivalence in inputs and outcomes.
Inputs of employees in an organization are:
Level of education
Skills
Experience
Reputation

Connections

Outcomes of employees in an organization are:
Salaries
Designations
Promotions
Benefits
Social Status
Respect in the organization
Opportunities
Equity Theory
Individual will also compare his input/outcome with other individual’s input/outcome.

How can Equity Theory be implemented?
Managers have to explain reasons for the difference of outcomes of employees in order to keep them motivated.
People compare their rewards with the market as well.
Lecture 21
Reinforcement Theory
To strengthen desired behavior at work place.
To force the workers to adopt that behavior.
There are two ways for reinforcement:
Positive reinforcement
Negative reinforcement
Positive reinforcement means to encourage a particular behavior.
Negative reinforcement means to discourage a particular behavior.

This type of leadership is used in those circumstances when there is not much time for decision making.

These types of leaders have more centralized powers.

Managers take more powers when:

Managers do not trust their subordinates.

Subordinates might not have enough training.

Democratic Leaders

Democratic leaders share the ideas.

In this style, leaders will encourage more communication. Free-Rein leaders

Managers depend more upon subordinates.
Encourage the subordinates to make decisions by themselves.

This approach is practiced when:

Staff is highly motivated.

People are working in synergistic environment.

Fully trained people.

Difference of communication in leadership styles

In autocracy, there will be downward communication but no upward communication. i.e. one way communication.

In democracy, there is both way communications. I.e. upward and downward communication.

In free rein, there will be more communication among subordinates and occasional communication among subordinates and managers.

Method of decision making depends upon the situation.

Contingency approach of Leadership

Every job has its own uniqueness.

With the change in task, different type of leaders and different leadership style is required.
